

2024-2025 PROGRAMMING

AdvisHER

A bi-weekly Mentorship program that helps girls build self-confidence and leadership skills by connecting them with a woman expert in their field of interest.

<code/HER>

Equips participants with the coding skills to produce a simple program in Lynx and can begin learning to code through project-based learning in the preceding levels.

Data4HER

Ignite your tech passion with Data4HER! Dive into the world of coding, data analytics, and digital empowerment designed just for you. Join a supportive community of tech-savvy girls, unleash your creativity, and shape the future of technology!

EmbraceHER

A 12-week program focused on prioritizing mental health and well-being for teenage girls that addresses emotional, physical, and psychological aspects of self-care, promoting a healthy and balanced lifestyle-a team of staff including therapists, quest speakers, and mentors.

FinanceHER

Embark on a transformative financial journey! Our program empowers management skills, girls with vital money breaking negative financial habits for long-term independence. We even take the girls to open their first savings accounts at a local bank.

FoundHER

Designed to empower girls to discover and develop leadership and entrepreneurial skills for their community. The modules will equip the participants with fundamental leadership skills and information or tips for their respective enterprises. With a pitch contest at the end with a chance to win \$500.
